Position Title: Systems Engineer/Developer

Location: Queensland (Brisbane)

Reporting To: Enterprise Systems Manager

The BigAir group is an Australian Public company which has quickly grown into one of Australia's leading providers of managed services, cloud-based solutions, networking infrastructure, and fully managed campus data solutions.

BigAir is currently seeking to fill the role of Junior Systems Engineer/Developer.

The successful applicant will be an extremely driven and high aptitude individual who has a passion for ensuring that when a task is completed the resulting output provides an exceptional experience for the end user.

You will have a couple of years experience, qualifications or certification in a related IT discipline but most importantly you will be type of individual who gets a kick out of finding a solution to a challenging problem and mastering new skills.

You love to create systems and tools that ease the burden of work for yourself and your colleagues, have a keen eye for detail and can "just tell" when things that "just are not quite right".

In return we will accelerate your career development by "throwing you in the deep end" and helping you learn how to take responsibility for a large scale multi service, multi product, multi vendor environment that spans the continent.

Your initial role will see you supporting, maintaining and developing BigAir's operational systems that are written in a number of languages including Java, PHP, Perl that provide monitoring, management and critical services to internal and external customers.

Your team will consist of a small group of talented systems engineers located predominantly in Brisbane, Australia.

Above all the right attitude, the ability to live our core values, a passion in technology and the ability to learn rapidly will determine if you are the right candidate for this role.

The position by nature requires some out of hours work and providing technical support to other departments via a myriad of communication platforms

The right individual will enjoy working in a fast paced environment alongside a team of experienced professionals with an attractive salary and ongoing company wide benefits.

Please send your resumes with covering letter to **darren.philips@bigair.net.au**
